3110
3M Processor Object for APT™

Description

The 3110 is a programming object for APT™ which allows use of the greatly expanded memory capabilities of the CTI 2500-C400 processor. Using this object, APT™ programs can be compiled up the the 3Mbyte limit of the processor.

Features

- Object files install into existing APT™ folders
- Eliminate the 1856Kbyte limit previously imposed on APT™ programs
- Compile programs up to 3Mbytes in size
- Allows support and expansion of existing APT™ installations
