## PRODUCT MATURITY ANNOUNCEMENT

Dear CTI Customer,

CTI announces the maturity of the 2556 16-Channel Isolated Thermocouple Input Module, and it's replacement by 2556-A.

The 2556 is a late 1990's design and contains many parts which have been discontinued. The functions of this product have been replicated on our new 2556-A module, which is a direct replacement. In addition, the new 2556-A now employs the same removeable wiring connector used on our 2559-TC 8-Channel Thermocouple module, making field replacement of modules much easier.

If you have questions about this maturity announcement, please contact CTI or your CTI Preferred Automation Partner.

Regards,

Robert Peck  
Senior Vice President  
Control Technology Inc.
